Area of monstrosity...

- Arrête de taper sur des morts, ça n'avance à rien!
- Ca soulage!

On emballait les décombres, les recouvrant d'une pellicule plastique, pour un riche amateur américain, qui possédait déjà plusieurs villes-avec-ses-cadavres-en-train-de-pourrir dans sa collection. Le dimanche, après l'office, il en ouvrait la porte aux vieilles dames, et les écoles venaient dans des cars silencieux contempler les ravages de la guerre en Europe. Les morts étaient délicatement embaumés dans des positions désarticulées, et finalement ridicules. Le mauvais goût américain...

Il fallait éviter les patrouilles et chasser les gosses qui venaient bouffer du mort, ayant mangé tous les rats.

L'asphalte semblait saigner du ciment. Les égoûts éventrés roulaient sur le charnier, gênant considérablement notre besogne.

- Attention au moignon! Le patron va râler si on abîme ses sujets!

Il y avait aussi des rivalités, la mode s'étant répandue. On s'arrachait les corps mutilés, le cours de la victime innocente montait en flèche. Le vieillard crispé dans l'agonie atteignait des sommes folles tandis que la fillette-au-visage-à-moitié-emporté était inabordable.

Les fouilles-merde s'agitaient, tripatouillaient le sanglant, exhumaient les déchets. On exportait sa famille, en petits cubes presse-papier; on vendait ses plus chers amis, en bustes nécrosés, en plateaux à fromage, porte-cigarettes ou momies authentiques.

L'Etat s'en mêla très rapidement, réglementant l'éventrage des civils qui devait suivre très strictement le cours de la Bourse des Mutilations: le monopole s'instaurait, plus de petits profits possibles!

On donna alors dans l'imitation. Des généticiens géniaux manipulèrent les chromosomes : on produisit du bébé mourant, fini à la main, éventré avec les dents; puis, les goûts des collectionneurs se raffinant, de l'amas protoplasmique, de la gélatine sanguinolente où rêvaient de beaux yeux abrutis, du charnel informel...

Le Service de la Répression des Fraudes intervint avec sa brutalité coutumière; les contre-façons furent sévèrement punies, les généticiens démembrés et vendus.

Désormais, chaque cadavre exporté porterait un label de garantie d'origine...

DELEATUR . - extrait de Qu'il est doux d'écrire une belle histoire d'amour quand la guerre est si proche, inédit.
